My life has become a symbol .

**In my life the words-- walk,work
and wake all are actually guided
by various spiritual symbols .**

“Some changes look negative on the surface but you will soon realize that space is being created in your life for something new to emerge.”

“If you make human company too important you will not discover your true Self. Relationships not based in truth are never entirely reliable and are rarely enduring.

Taking time to discover yourself is the best use of time.

Prioritize this.

One should not excessively seek partners or friends, one should seek to know and be oneself. As you begin to awaken to the Truth, you start noticing how well life flows by itself and how well you are cared for. Life supports the physical, emotional, mental and spiritual needs of the one who is open to self-discovery. Trust opens your eyes to the recognition of this. Surrender allows you to merge in your own eternal being.”
