My life has become a symbol .

**In my life the words-- walk,work
and wake all are actually guided
by various spiritual symbols .**

Writer .

“The body is not interested in your perceptions. It is not interested in learning anything from you or knowing anything from you. All the intelligence that is necessary for this living organism is already there. Our attempts to teach this body, or make it function differently from the way it is programmed by nature, are what are responsible for the battle that is going on. There is a battle between what is put in by culture and what is inherent there in the body.”

— **U.G. Krishnamurti**

“When you call yourself an Indian or a Muslim or a Christian or a European, or anything else, you are being violent. Do you see why it is violent? Because you are separating yourself from the rest of mankind.

When you separate yourself by belief, by nationality, by tradition, it breeds violence.

So a man who is seeking to understand violence does not belong to any country, to any religion, to any political party or partial system; he is concerned with the total understanding of mankind.”
