Sarada Mani

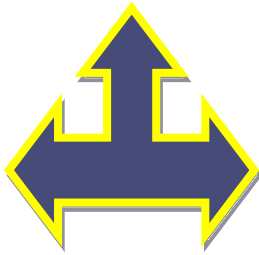

Lord Venus

My life has become a symbol .

**In my life the words-- walk,work
and wake all are actually guided
by various spiritual symbols .**

Writer .

“The body is a fortuitous concourse of atoms. There is no death for the body, only an exchange of atoms. Their changing places and taking different forms is what we call 'death.' It's a process which restores the energy level in nature that has gone down. In reality, nothing is born and nothing is dead.”

“Governments want efficient technicians, not human beings, because human beings become dangerous to governments – and to organized religions as well. That is why governments and religious organizations seek to control education.”
