**To**

**Appa, Amma, Rohan & Family**

**This book is for my past life parents and family. They were with me some 250/300 years ago in Nepal. At that time it was not called Nepal, but a scattered region and Appa was a king of a certain hilly place and I was his daughter.**

**I still miss Nepal very much.**

**I love Nepalese cuisine and culture.**

**I love the mountains there and it is home to some of the lovely peaks of The Himalayas.**

**Himalaya is my oxygen. I can live without mobile phone, but not without the thought of Himalayas. God has given me the chance to meet my long-lost parents in this life and what a beautiful experience that is! Our souls are connected.**

**Life goes on and they have not forgotten me though they are very successful in this life too. I am still their little baby as always.**

**Thank you, God, for the sweetness life has brought with it for me! Thank you, God, for everything.**

**May Almighty pour equal blessings in each and everybody's life and make it a lovely experience to go through and share it with all and enjoy. Just believe in the Universe.**

**Last but not least, English is not my first language. I love to narrate in my mother tongue. I believe a person feels most comfortable when they narrate in their own language because there is no one else like our mother with whom we feel most easy, even if it be language alone. Because we are her blood and flesh in a different body only !!!**

“For truly we are all angels temporarily  
hiding as humans.”  
— **Brian Weiss**

# Rich

I have people telling me  
they are rich and elites  
They have a different mindset and they  
hate people who are just less wealthy.

They really hate you and me  
They even hate our shadow  
Then I asked one of them  
How much money could one accumulate?  
His answer was simple  
He said - people can earn trillions.  
And, my answer was smart enough !  
I asked him to donate to the charity for right  
causes and see how long  
“the **wealthy bubble**” lasts.

# Elite

The only elite in the world are the people who are special in many aspects of their lives and who have a special purpose to live ; they should be celebrated by all the people in this world.

I don't think elite people are any special group or comprise of any kind of person who has been celebrating their vices and got victory over their own crimes.

They may drive a Tesla or go to some sort of space station for their festive season but to me they are only a bunch of losers who are very ordinary folks after the sunset when the makeup is not there .

# Rights

Groups and activists; fight for freedom and justice for women and children or minorities and migrants

Some people fight for animals and environment.  
Has anyone fought for their first flame?

# Hope

I have seen a tree  
which has a huge trunk full of flowers, not  
branches .

Its botanical name is ***Cauliflory***

It is a peculiar tree

Universe is so beautiful and complex

Never thought such rough patch could give rise  
to such lovely real blossoms.

Have seen a real Cinderella in the homeless  
camp.

# Pizza Boy

I buy regular pizza and it keeps on  
changing its shape and name .

Margarita and lemongrass and this and that

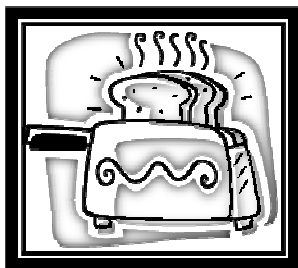

From five dollars to buy one, two free then family  
pack and buffalo wings and Coca-Cola with

lemonade extra large ;

Then fries change size .

Pizza shop changes its name

But the pizza boy remains the same.

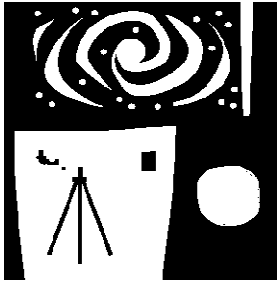

## Full moon day

I went on a date with a wild fox  
on a full moon day  
It was not a daydream but real event .  
We gathered wood and made us  
Chinese chicken and salad inside wood without  
any rent .

The fox ate and howled at the moon  
I was glad  
Cause I had my dream date that night  
So I was not sad .

I am not exaggerating  
It's just real  
Once upon a time there was a Princess who  
dated a wild fox on a full moon day;  
**Only the fox ate the princess half the way.**

## Detective

I went to a detective's office  
To my astonishment  
I found that there were no intelligence officers  
but psychologists .

When asked, the answer I got was  
The mystery of human mind is the most  
complex ---  
So, a psychologist should have matched the  
footprints of a true mystery solving man --  
**A detective.**

## Empress

Once upon a time there was a  
little girl named Fairy  
Whose life became a fairy tale  
She married the king and became the first  
empress of the kingdom  
which ruled the empire for centuries.

She was from a warrior's family  
and was a wise woman  
Who wanted to be a learned scholar  
in our modern illuminated den.

Universe had some great plans for her  
And she suddenly got her magic wand  
then she groomed her empire  
into a lovely garden  
full of flowers and bonsai plants.

She was not a typical queen  
Dumb, party animal and proud  
Who was busy collecting designer dresses  
And pets like grey, blood hounds.

She cultivated her imagination  
into some intoxicating phrases  
And made her kingdom a paradise for beings  
Whether human or animal or birds  
Who were free to always sing .

When asked, she answered,  
“they all are my children”.  
My palace is open for all  
Aristocrat, fools and nerds.  
During summer , winter and fall .

This mysterious royal who saw  
through the Ages  
lived for a century and inspired many;  
In her name a classical melody was created  
The music was so sweet and beautiful  
It could create vibes hot and rainy.

It touched the soul  
So nurturing was it's sound  
that it felt like heaven bound.

The empress was a great mother and had  
a bunch of sweet children  
She was very kind and caring  
Like rainbow touched the garden.

She was a beautiful star  
Born from pure star dust  
So pristine and real was she  
Never had any plastic attached.

The angelic being is still there  
Do you want to meet her?  
Go ahead on a super blue moon day  
And look upon the sky to greet her.

*Dedicated to Shahbannu of Iran Farah Diba*  
*Pahlavi*

# Mullah

There was a mullah in my neighborhood who used to preach religion

His job was to spread peace and harmony among people and pray for the world and make it a better place.

Interestingly enough, he started preaching and promoting violence against women and children and others who were not born into his religion.

I have told him several times

Hatred leads to nowhere but he is not a saint or a prophet!

So, he drank a bottle of poison and dragged people into the streets of darkness from where there was no way to escape the evil, or even return to the streets of salvation.

Moral of the story :: Avoid Mullahs not Prophets .

# Color

Miriam sold color to teach music to her teenage son.

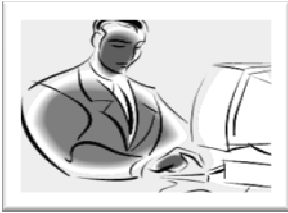

Miriam sold colors for many decades until her son became a musician.

Miriam's son Mirik now lives in London and sings regularly for a famous British band.

He is not a lead singer but earns well in Indian rupees. He has a good voice and fan base

**Miriam has retired.**

**Mirik is successful and has won a few accolades but has lost the colors of life since his happiness was chopped by fame blades.**

## Modiji

Modi Modi  
It's like bread and butter  
Among all Indian  
It's the only thing that matter  
When you are glad you are Modi  
When you are sad you are Modi  
In Gujrat riots Modi Modi  
In Manipur crisis Modi Modi

He has changed the life of his wife  
She became a teacher after his advice  
It is not easy to do so  
And he took care of his mother  
Till the end of her life also.

Poets' suggestion to you is  
Instead of using the word  
MODI for everything  
Go ahead and investigate why  
These things are happening.

Is it Mr. Modi who is solely responsible  
Or we Indians are really very vulnerable.

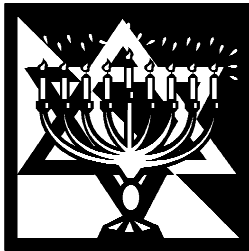

# Sadhguru

Who is a Sadhguru???

A spiritual giant who is free from corruption and sex charges.

He is the one who works solely for your benefit and he will not charge any money for his work

You will never get to even know that he is working with you and your soul for 24/7, and incarnation to incarnation- effortlessly to drive you towards perfection, permanent peace and happiness.

## Violence against women

Women are raped again and again in India

I don't know what it means

I don't think the people doing this have any real respect for anyone, let alone women;

There is a rape machinery behind this stuff and it's just a set-up

Which is disgusting and dangerous and done to hurt people and show the society that how vulnerable they really are in front of them!

A bunch of pathetic and powerful individuals whom we call- new age politicians.

Linguistically, **rapist** has become a synonym of the word politician.

## Destroy churches

Why destroy churches?

You saw their incense sticks or stone statues or  
stained-glass doors

the candles are lovely.

Aren't they just decorative and beautiful?

The atmosphere is serene.

The holy book named Bible

The verse may be different

But the vibes are still the same.

The priest is calm and quiet

The hymn is sweet, chorus is bright

Even the God is same!

He answers to your prayers!

**Why destroy churches?**

## Legend

Legend has that there was a princess who lost her kingdom and she was chased by enemies and elephants

So she ran into the forest from the castle and then came near an ancient stone temple of a fierce warrior goddess named Kali.

She prayed to the goddess for her protection and the holy place started shaking and a very old giant tree split into two halves and she entered the tree and vanished.

Till date, the temple is there in India.

**A mysterious magic realism.**

**To me, it is a landmark of ancient feminism.**

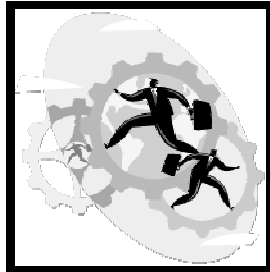

# Robot

I have a prolific neighbor who is very nice, kind and knows the rules of the game and very knowledgeable.

Sometime back, he was out of town for a few weeks and when I saw him I asked , where he was.

To my surprise he said that he went to America to treat his personal robot-- who is suffering from stage four metastasis cancer; which is very rare and painful disease, **and has just been diagnosed in the species.**

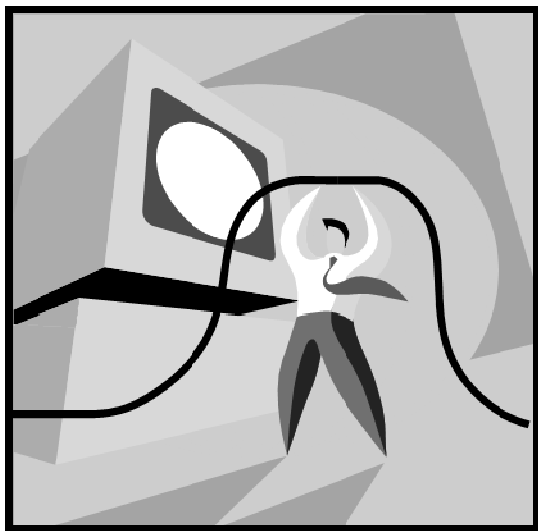

## **Sex maniac**

Derek is a serial killer, who kills after sexually assaulting people.

Derek is a criminal ,who is a hero among many others who follow his path which leads to notorious crimes.

Derek has an obsession to make love with people, and his philosophy is that the universe should remove the people from his life that it wants to protect.

The universe also has a philosophy; if Derek wants to continue with his way of living life, then he should make love with life, its purpose, and consequences, and eventually it will bring some real love and happiness into his existence.

## Go green

We all are currently searching for a green light which will help us to get rid of pollution and reduce radiation etc.

Have you ever heard of green thoughts?

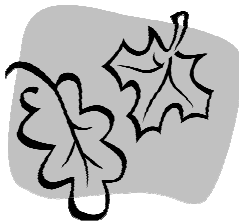

To be honest enough there is nothing called chemical and herbal!

Even the herbal is actually a chemical!

Nature has given us a way to cultivate our knowledge and apply our understanding to live the life harmoniously and beautifully.

It is our thoughts which leads to our actions as the saying goes !!

so let's think **green** to reduce carbon emissions and make the planet a safer place to live.

## A love poem

Long time ago I had a crush, and then another one and then another one ; The list goes on .  
Today I had a handful of them but I was never married.  
They are all like good friends

I love them all in bits and pieces but they were never perfect  
I always asked for Mr. Perfect  
Today I am close to all of them  
Critics may call it polygamy  
or me a promiscuous  
But still it's a love poem with some romantic touch.

Marriage is a cage, love is not  
Wedding bells leads to commitment  
Love is like sunshine on a cloudy island.  
I am there for them in thick and thin  
and they are here too  
because cheating starts in the mind itself  
and in my life ;The real love begins.

# Islam

Islam is a religion of peace.

It is a belief in which the women and men of all races are respected by the Muslim,

Their faith says, all of us are created from one supreme source.

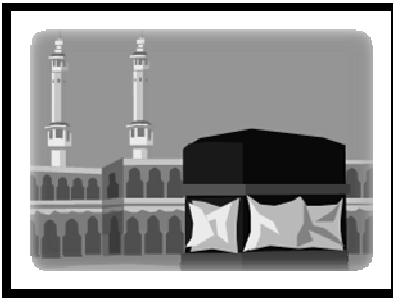

**Read Maulana Jalalluddin Rumi.**

If you want to buy your diamond ring,

How would the local grocery store provide them?

You should go to the best jewellers, in BURJ

KHALIFA !

# Saturn

The most beautiful planet in the history of mankind is Saturn .

A cool heavenly body with the ethereal ring !

To me he is Pram Prim.

A tantrik name of saturn.

He insists that I call him "Nilanjana Samabhasam", his prayer and name in Sanskrit, an ancient Indian language which can also be used in computer programming .

If he can be so kind and friendly with a sinner like me, then why are you guys so scared of him?

Buy him some lovely flowers and ice cream.

He will be glad .

Saturn will hug you.

But hey there! Don't offer opium ;that too on a Saturday !

**Cause "Saturn" has never done drugs!**

**He will delete you right away.**

# Murder

Be a murderer

Be a criminal

Be a crime lord

Don't be afraid to kill

Don't let anyone decode you

Earn respect

Earn accolades for being a great

Murderer

Contract killer

Assassin

Your client list looks good.

These folks are examples of classic Foe .

Their names are envy, anger ,pride and greed  
and the list goes---- !!

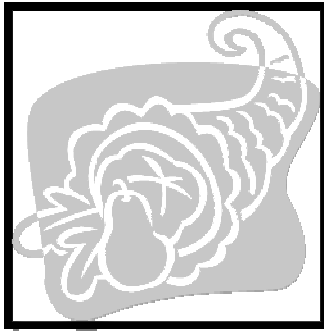

# Terrorist

Oh! My dear Muslim brothers  
If a Hindu calls you terrible terrorist then  
Hey you there, please remind him about the  
horrible history of the country in which they used  
to burn alive all their own widows young and old  
even children ;  
In that era, girls were married at the age of even  
nine . **My own grandmother was!**

Raja Ram Mohan Roy banished it by law.  
It was called '**Satidaha Pratha**'.  
The whole system is evolving in ways we can't  
possibly comprehend , You have to be rational  
and patient .

**If you eliminate all Muslims as terrorist ;  
We will eliminate all Hindu people as—  
BBQ Experts and Anti fire fighters.**

## **Time**

What is time?

Nobody knows.

It just flows.

The whole thing seems like a Slide show

The life is a cinema and the movie is about  
our lives .

When we place it on a screen it is a beautiful  
story which goes on;

**And time is the glue which holds it on.**

## Pirate

A serial rapist and pirate was tasered.  
He was taken under custody then transferred to  
correctional facility for further semesters .

When asked, what his next life choice would be,  
he replied-a mammogram machine.  
Dissatisfied, the prisoner was sent to a prophet.

After some time passed when he was  
asked about his new life role he quickly replied  
that he would be a happy little bird or fawn  
jumping around here and there.

**He passed with flying colors.**

# Heal

Heal your wounds  
Heal your heart  
Heal your mind  
Heal your soul  
Heal your spirit  
Heal your emotions  
Heal your ego  
Heal your body  
Heal your brain !

Affirmation starts with healing

Heal heal heal

Healing starts tomorrow

You will be blessed with healing powers

And you are now healed totally  
with your own self.

**Let me see how the rest of the world fights  
against you.**

# Coffee

Coffee is not an addiction  
It articulates your being  
Have you ever seen a coffee plantation  
Beside a hilly terrain?  
Green acres and white petals  
Euphoria slowly turning into a silhouette  
I am overwhelmed by this moment  
I am overshadowed by coffee gang!

Do you consider it a narcotic or drug  
Do you relate it to bitter pills  
There are many different things  
which says coffee is magical deal .

Coffee is my first flame  
Though I know it's not eternal love  
Sometimes it's just the passion  
which drives us through  
It may not be a celestial dove.

## Broken hill

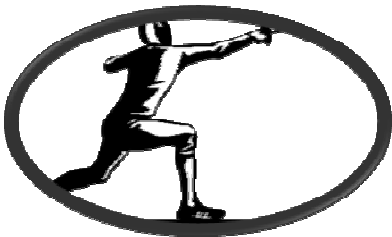

To reduce my inflated ego I used to stand in front of a hill or a sea and feel the limits of my being.

I used to do this regularly when I worked effortlessly to achieve my goals and dreams and roast the turkey or make some good kebab in the full moon night beside a beautiful stream.

One day I saw my favorite hill has been broken into pieces by the civilization –

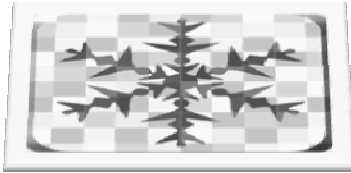

**I was confused.**

I tried to explain the phenomena and realized that there is no phrase called “sky is the limit”.

# Owl

My favorite bird is owl .  
Full of wisdom  
Goddess Laxmi's attendant  
Laxmi is goddess of wealth  
Wealth means not bitcoin  
It leads to wisdom  
Owl is not beautiful like Drew Barrymore  
  
But it can see through darkness  
It has special eyes  
People are into feather or antique collection  
I collect Owl images and statues  
I am exhibiting my OWL shadow for people  
To collect both wisdom and wealth.

**People from the past, have a tendency to  
walk back into the present, and run over the  
future.**

**— Anthony Liccione**
