Swami Ishatmananda

My life has become a symbol .

**In my life the words-- walk,work
and wake all are actually guided
by various spiritual symbols .**

Writer .

“Give up defining yourself - to yourself or to others. You won't die. You will come to life. And don't be concerned with how others define you. When they define you, they are limiting themselves, so it's their problem. Whenever you interact with people, don't be there primarily as a function or a role, but as the field of conscious Presence. You can only lose something that you have, but you cannot lose something that you are.”

– Eckhart Tolle

If you don't believe in any religion,
at least be free-spirited and honest in
your actions.

=====

People are slaves of this world.
Religion is just what they say. They
use it as long as it provides them
with their living. When they are
tested, there remain only a few true
religious ones.
