The book cover is designed by me also
the covers of my books --
TomariSarengi,Raatpari,Kaalpurush O
pahari Moinaguli, Suhel ,Keyur,Paap O
Ramdhanu etc.

**To Dolon & Dipankar Da,
(Actors :: Dolon Roy & Dipankar
De)**

Dedicating this book to my childhood friend Dolon Roy and India's one of the finest actors' Dipankar De.

She loves poetry.

I would request her to read my book KATHBURO which I feel is not a prose but half prose and half poetry style of writing with innovative ideas in writing. So, I hope she would enjoy the subject.

Last but not least, English is not my first language. I love to narrate in my mother tongue. I believe a person feels most comfortable when they narrate in their own language because there is no one else like our own mother with whom we feel most easy, even if it be language alone.

“A friend is someone who knows
all about you and still loves
you.”

— **Elbert Hubbard**

Comedy

There are so many ways of
Making people laugh

Blue comedy

Black comedy

Prop comedy

Physical comedy

Mocumentary

Insult comedy

Deadpan comedy

Satire

But have you heard of anything like

Bombing an entire nation

just for fun

This kind comedy?

What is it? NUTS COMEDY?

Logic

Once Upon a time
There was a doctor who was very
Rational and logical
Who used to hate irrationality from
the core of her heart
She was brilliant and successful and
Never believed in ghosts
Or any such supernatural creatures or
superstition
Until one day
Uncanny stuff started happening in
Her house
She was very very upset
Could not find any rationale of what
was happening or going wrong
Her family was watching dark
shadows
In the middle of the night
Which became intense during
new moon phases

Everything was falling apart
But Mrs. Doctor was still in denial and
was
Distressed by the nature of the
situation
Which she knew by no way was
normal.

Lastly the problem completely solved
itself when they threw away a picked
up bone brought by their pet German
shepherd Lexy from the woods as a
toy.

No one knows what kind of bone is it
but the logic behind it is the owner of
the bone had a deep bond with the
material stuff and hence the havoc.

As soon as they got rid of it all the
nuisance stopped so the lady
physician who was very logical found
that there are incidents out there

which cannot be attributed to common knowledge but are still possible and rational.

In this interesting case the ghost came to teach her a few lessons about spiritual knowledge through an object that was deeply rooted within her training and tradition.

Messenger

Who is a messenger
Who is a preacher
Could you please explain?

Those who distort facts are preachers
They are not preachers either they are
dictators and dishonest politicians
who
for years have failed to deliver a
profound change in our world and
they have been deliberately lying and
trying to destroy the world by making
nasty updates and upgrades.
But time has come to bypass them
and
Create an ice cream world
Where people can have free ice cream
for their family and friends and

whoever they love because it is the
time to ethically hack and destroy the
messengers

Since they have become nasty to
nastier people.

Design

India has designed so many different things

In various ways and I am very impressed by how much they knew and understood

The story goes on and the movie was very interesting

The modern times are still very interesting

The astronomers are shining bright

India is great indeed

But I think it's the time for you to design a new society for the future

Like the rest of the world

It would be practical not perfect

Not based on caste system rather

Human Rights

Not on skin colour but
Human characteristics
I have read the shastras well
All of them points towards unity in
diversity
Which is the true nature of divine
Indian culture and wisdom and
serendipity.

Raindrops and roses

When God created the cosmos
There were only rainbow raindrops
and roses
All around
Then came women and snakes and
scorpions people say
And turmoil started
But that's not the case.

My lord the point to be noted here is
Everything Everywhere was fine until
Lust and control were invented.

Fake

What you cannot see is fake
What you cannot understand is fake
What you cannot comprehend is fake
If all is unrealistic then why you're
still searching for the real answer?

Silence

Silence doesn't mean keeping quiet
It is all about shutting the doors of
your
heart and mind and ears and
everything else
so that the cosmos can communicate
and understand you better than
anyone else and bend you like
Beckham.

PM's daughter

Prime Minister's daughter had a stroke and died because her father was the love of her life and she didn't have the chance to speak to him or spend enough time with him due to his duties and travelling so she screamed and cried and then she left and lied to all about her cocaine and fall then she died and was fried in the desert heat next to her father's constitution seat

Mortician said she had died few days ago
Though she was a Prime Minister's daughter.

Weapons

The weapons that are used to destroy
people should be used for killing
innocent civilians' wicked thoughts
Maybe it's a little too abstract
But it looks really good on the wall
Even with the specs
Else Ukrainian and Russian will never
share a hot and spicy barbecue.

Online university

Wisdom does not only lead to a better salary but it has a higher rate of intelligence and knowledge cream attached to it and thus goes the saying that knowledge is power
College girls has loveliness
Online students are veterans
They've different pathways and perspectives
Don't compare honey with coconut water.

Barons

Barons are privileged class
Some are married to communists and
have become commoners
Now they can see life from other side
How it feels to suffer for basic things
and rights
How it feels to get manipulated for no
reason and slandered in public cause
you are not an aristocrat
The barons are homeless beggars
now begging for forgiveness and
compassion.

Exposed

I have exposed my skeleton
No, I don't have any anatomical
evidence
I have exposures of my own life and
Love
Love is very painful but always
passionate
for me
I have experienced the most amazing
and horrible things that a person
could ever imagine
But I have never hidden the truth
I have explained it to you
So many people who are
brainwashed
Can intensely subscribe real love.

Green energy

War crimes and war
Will never end and bones
and bombs
will never gain negative attention
They are immortal
as long as human rights are abused
and the rights are fraudulently taken
away from us.
Now the time has come to brainstorm
a green bomb
Which will detonate at least once in a
lifetime with zero climate change.

Gold digger

A person who has bad intentions or
Instincts

Who scapegoated many people for
Own Freedom

Who is essentially not a
Qualified miner

But deals with precious materials and
metals

Of social media
are immoral butterflies
literally liars or murders

Or hypothetical humans who are just
trying to make themselves look good
are quarantined for the rest of the life.

Fern

Bring Me a fern in my life
Black shark sleeping with me
Dark clouds all around me
Like old tortoise
Engulfed my soul and
Sucks it out for no good
Bring me a few more ferns Oh my
goodness
I am going crazy with all these thorns
and evil starfish.

Utopia

Someone or something
Create utopia
Some songs remind me of
Sounds long forgotten
Would never return
in my life
Dreams unfulfilled
Smell of colours and
Lights and rainbows
I know this phase will also pass
But hopefully the utopia remains.

Melancholy

God is also alone
so he created the universe
When I think of writing a poem
I find that someone else has already
written it in some other language
Because loneliness leads to poetry
And merging of sacred souls .

Peace

You have a great toy
Great job
You are very happy for that
Yeah, but your dearest pal isn't that
lucky
He literally lives a jungle life
Shadow and shades all over his body
But he is still glued to happiness
This is pure peace.

Love

What You Did for Your Dog or
beautiful hair or cat or girl or ginger
chicken whatever

Is not legal love which goes by the
book

Have you interfered with their free
will?

Nah nah nah!

Well, that's pure love.

Narcissist

Narcs are probably more popular
than classical folks because they're
not really popular
I'm sure they're not
But if you want to see them from a
different perspective and publish
some R & D on them
You will see that they are very similar
to a real source of immature cells and
childish agony
So, let's transform them
Train them into something better
I'm sure they'll appreciate that
If life is a drama, then they
are the young ones,
Newborn actors on stage
Let's capture and play them.

News

News reports that are releasing
important data about life and health
conditions and deaths and gossip
The list goes on
Straight from heart to strategic point
I'm sure you will definitely dive deep
into information and information
and information
The government has provided insight
to
Life and Death Services and other
charities, like sea waves never ending-
The National news network goes on.

Whiskey

The most popular medicine for all
diseases including disorders of mind
and body

Whiskey is immensely beneficial
and immortal
and compassionate

And loving
and loyal

Literally listening

There are no such words like anti
whisky

Ban whiskey or Nuke whiskey.

Even warriors love it

Modern day quiz

If you're asked to answer the following question

Say a good quiz and then you will be able to

Earn one million dollars

Then what will you give as an answer?

Question is very simple.

Whom will you take with you in a future situation

where only one of the three is allowed

Wife, prodigious kid or mobile phone?

Gina Barreca

“It's not that diamonds are a girl's best friend, but it's your best friends who are your diamonds.”

THE END
